EXPANSION OF THE AQUACULTURE FARM INSIDE OF THE NORTHERN ARM

Mariners are advised that there will be a further 4 Yellow Special Mark buoys laid to indicate an extension to the existing Aquaculture Farm.

These buoys are in addition to the existing Special Marks already in place. All lit buoys will show light characteristic Fl.Y.5s.

The new area is 200m by 100m in size and several buoyed floating long lines will be contained within this area.

In line with the existing farm, the seaward corners will be marked by two lit Special Marks. The inner corners, close to the breakwater, will be marked by two unlit yellow spherical buoys.

Mariners are requested to give this area a wide berth and pass at slow speed with minimum wash.
